

Design Ideas

Each room can have a theme such as:
Tree house room, rainbow room, cloud castle room, a beach in a room!

Can you tell a story with your rooms?
What if: A friend comes to visit, what will they find in your rooms?
What if: You are hosting a surprise party for someone very special.
What if: A chipmunk came to visit!

Does your home have a story?

Please share your photos of your work by emailing bhisham@nccpeterborough.ca or tagging the New Canadians Centre on social media #PtboIsMyHome

Many thanks to the N.C.C. for inviting Atelier Ludmila to participate in this project! L.P.

This year, the New Canadians Centre is celebrating 40 years of welcoming and supporting newcomers, and the annual Multicultural Canada Day Festival is an important part of this history. The festival brings our community together for a celebration of our country's birthday and the multiculturalism that is core to Canada's national identity.

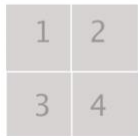

Newcomers and their families have grown to be part of the rich cultural fabric that binds our community together. "Peterborough Is My Home" — our chosen home that we love, cherish, and support. This year's Multicultural Canada Day programming embraces this sentiment and has been adapted to reflect physical distancing guidelines due to the COVID-19 pandemic.

Make a fold up home story book!

You'll need: 4 squares of paper (all the same size), glue stick, scissors, markers

Instructions:

1. Fold your square of paper in half and in half again, to make a smaller square.

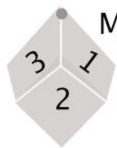

Unfold it and lightly number each square:

2. Cut the crease between 3 and 4

3. Slide 4 under 3 to make your first room. Rotate the box so 2 is the floor.

Make a little mark at the top of 1 and 3 to remember the top of your room.

4. Unfold the box and design your first room (remember to leave 4 blank).

2 will be the floor of your room, 1 and 3 are the walls.

5. When you have finished your design, fold your room up, do this by making a crease down the middle of 2. Fold it upwards so it sandwiches between 1 and 3.

6. Make 3 more rooms in the same way. It gets easier as you go along!

7. When your rooms are designed, put your book together: Name your rooms A, B, C and D. Put A & B together by gluing the back of A3 to the back of B1.

Glue C to B the same way, then D, But don't glue D to A! Use paper clips to hold them together. Fold your book up, making the back of A1 the cover of your book.

Design your cover.

Enjoy your home story book!
